INTRODUCTION

This directory is the result of a long process of investigation about religious groups in the Americas that began in 1997 as part of the **Latin American Socio-Religious Studies Program (Programa Latinoamericano de Estudios Sociorreligiosos, PROLADES)** under the directorship of Clifton L. Holland, who resides in San Jose, Costa Rica.

From 1990 to 1997 Holland coordinated a multi-disciplinary team in a study of ethnic and religious diversity of the **Greater Los Angeles Metropolitan Area (GLAMA)** from offices on the campus of the William Carey International University in Pasadena, California. One of the main results of this investigation was the creation of a database of all known religious groups in GLAMA and the production of a series of research reports on each of the seven regions of GLAMA. **The GLAMA database** included more than 12,500 listings for the five-county area, which include parts of Los Angeles, Orange, San Bernardino, Riverside and Ventura counties.

Whereas Holland had previously done extensive research on the growth and development of the Protestant movement in about 25 countries of the Americas, with a special focus on the Central American region since 1970, the GLAMA research project created a need to develop a **classification system of all known religious groups in the world** in order to understand the phenomena of religious diversity present in GLAMA, which has become the new major port of entry for immigrants from around the world to the USA.

Consequently, Holland decided to utilize the classification system developed by Dr. J. Gordon Melton in *The Encyclopedia of American Religions* (New York: Gale Research and Triumph Books, 1989) based on a typology of major religious traditions and denominational families and subfamilies. As a result, all of the religious groups in the GLAMA database were classified by Holland using Melton's typology, and certain modifications were made in the typology to accommodate Spanish-speaking denominations and independent churches. For information about this important study, see: <http://www.prolades.com/prolades1/glama/glama-home2.htm>

After the GLAMA research project was completed in 1997, Holland returned to his home in Costa Rica to begin a new phase of his research activities: a study of all religious groups in every country of the Americas. This new project was named **RITA, Religion-In-The-Americas**, and it coincided with the development of the Internet and the availability of more sophisticated computer systems, which enabled Holland and his colleagues to better coordinate their activities by e-mail and to develop a better delivery system for information sharing by the Internet. The end result was the current PROLADES website at www.prolades.com that contains web pages for each country of the Americas, plus Spain and Portugal, and an on-line search engine to access information in the RITA database: <http://www.prolades.com/searchengine/>

Now that all of the known religious groups in the Americas and the Iberian Peninsula (Spain and Portugal) have been identified and classified by Holland and his colleagues, we have begun the process of creating working hardcopy directories for each country in order to speed up the task of verifying and updating the information contained in the RITA database, as well as making the information available to the general public in Adobe Acrobat Reader format (pdf).

If you would like to assist us in the process, please go to the **Country Research Associate (CRA)** section of the **PROLADES website** to learn more about how you can be involved: <http://www.prolades.com/prolades1/cra/cra-home.htm>

We would like to acknowledge the valuable assistance of Larry Kraft of SEPAL-Brazil for his contribution to the development of PROLADES-RITA database on Brazil, especially regarding information about Protestant denominations and service agencies. For more information about the Protestant movement in Brazil, go to:

<http://www.prolades.com/prolades1/cra/regions/sam/bra/kraft.htm>

--The PROLADES Team
